Duke Chapel Closure, May 11 through April 2016

Beginning May 11, Duke Chapel will close for about a year to allow for internal and external restoration. The full scope of restoration work, which includes rehabilitating the ceiling and replacing the Chapel's original roof, can be read about in this story.

Impact

Since Duke Chapel’s main worship space will be closed during restoration, administrators have made plans to move weekly services and special events to other locations. Sunday services will be in Baldwin auditorium over the summer and in Page auditorium for the 2015-16 academic year. A full list of adjusted event locations can be found here.
