The Facilities Management Department will start construction in Bay 6, 2nd floor on the date listed above. This will involve (4) cubicles on the North side. Construction of the hard wall will begin July 14, 2014 and there will noise and construction dust and smells associated with this work throughout the next four weeks. The contractor will try to minimize the impact on the other Bays as much as possible and a dust partition will be installed to keep area contained. This in support of the Smith Warehouse Renovation Project, Bay 6. We apologize for the inconvenience.
